

BRAND GUIDELINE

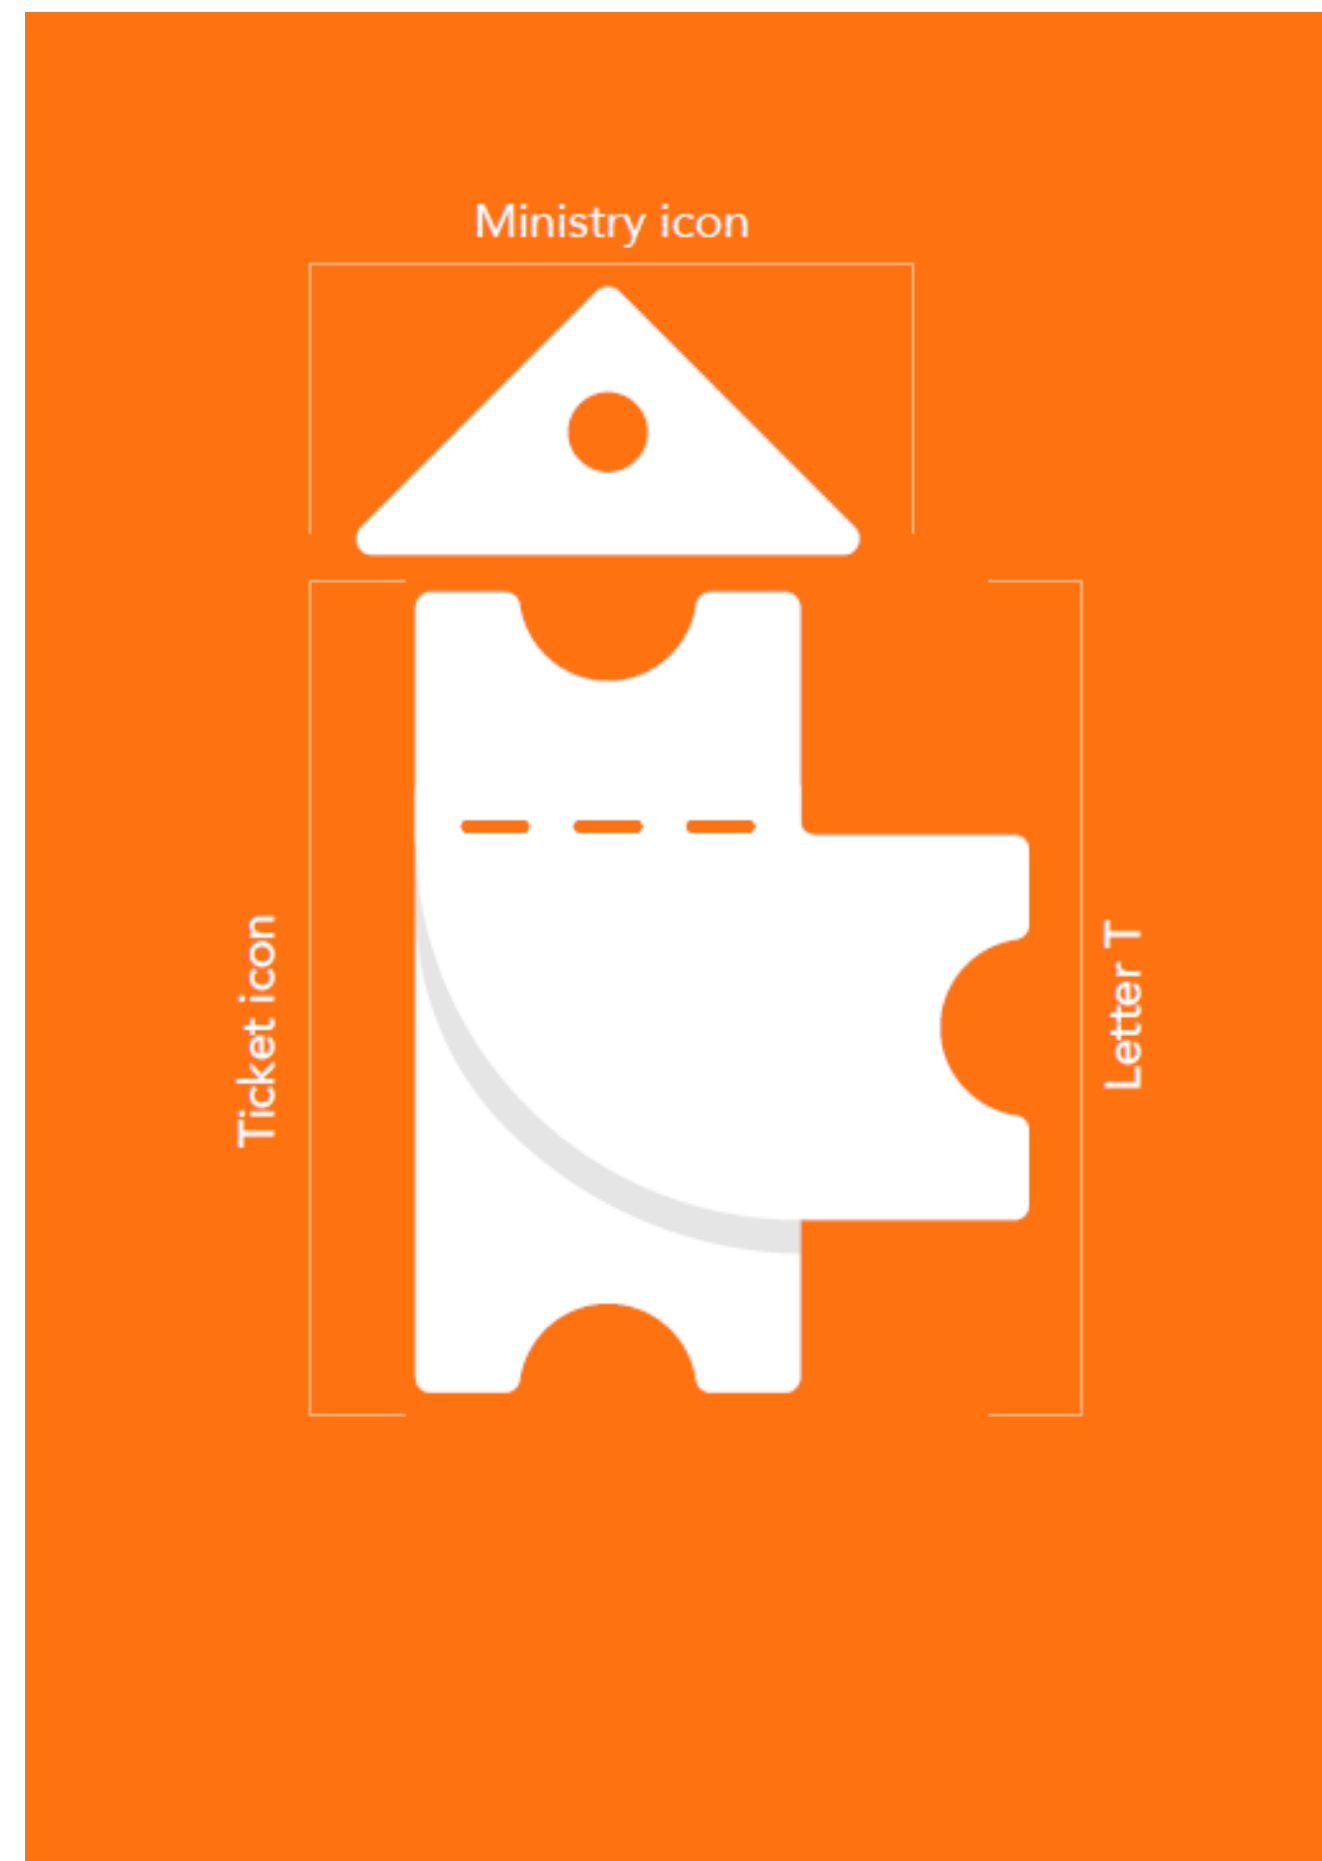

TicketsMinistry Flyer Guideline for Event Organisers.

In this document, we will provide you with clear instructions on how to place our watermark on your event flyers when promoting music and entertainment events that offer online ticket sales through TicketsMinistry.

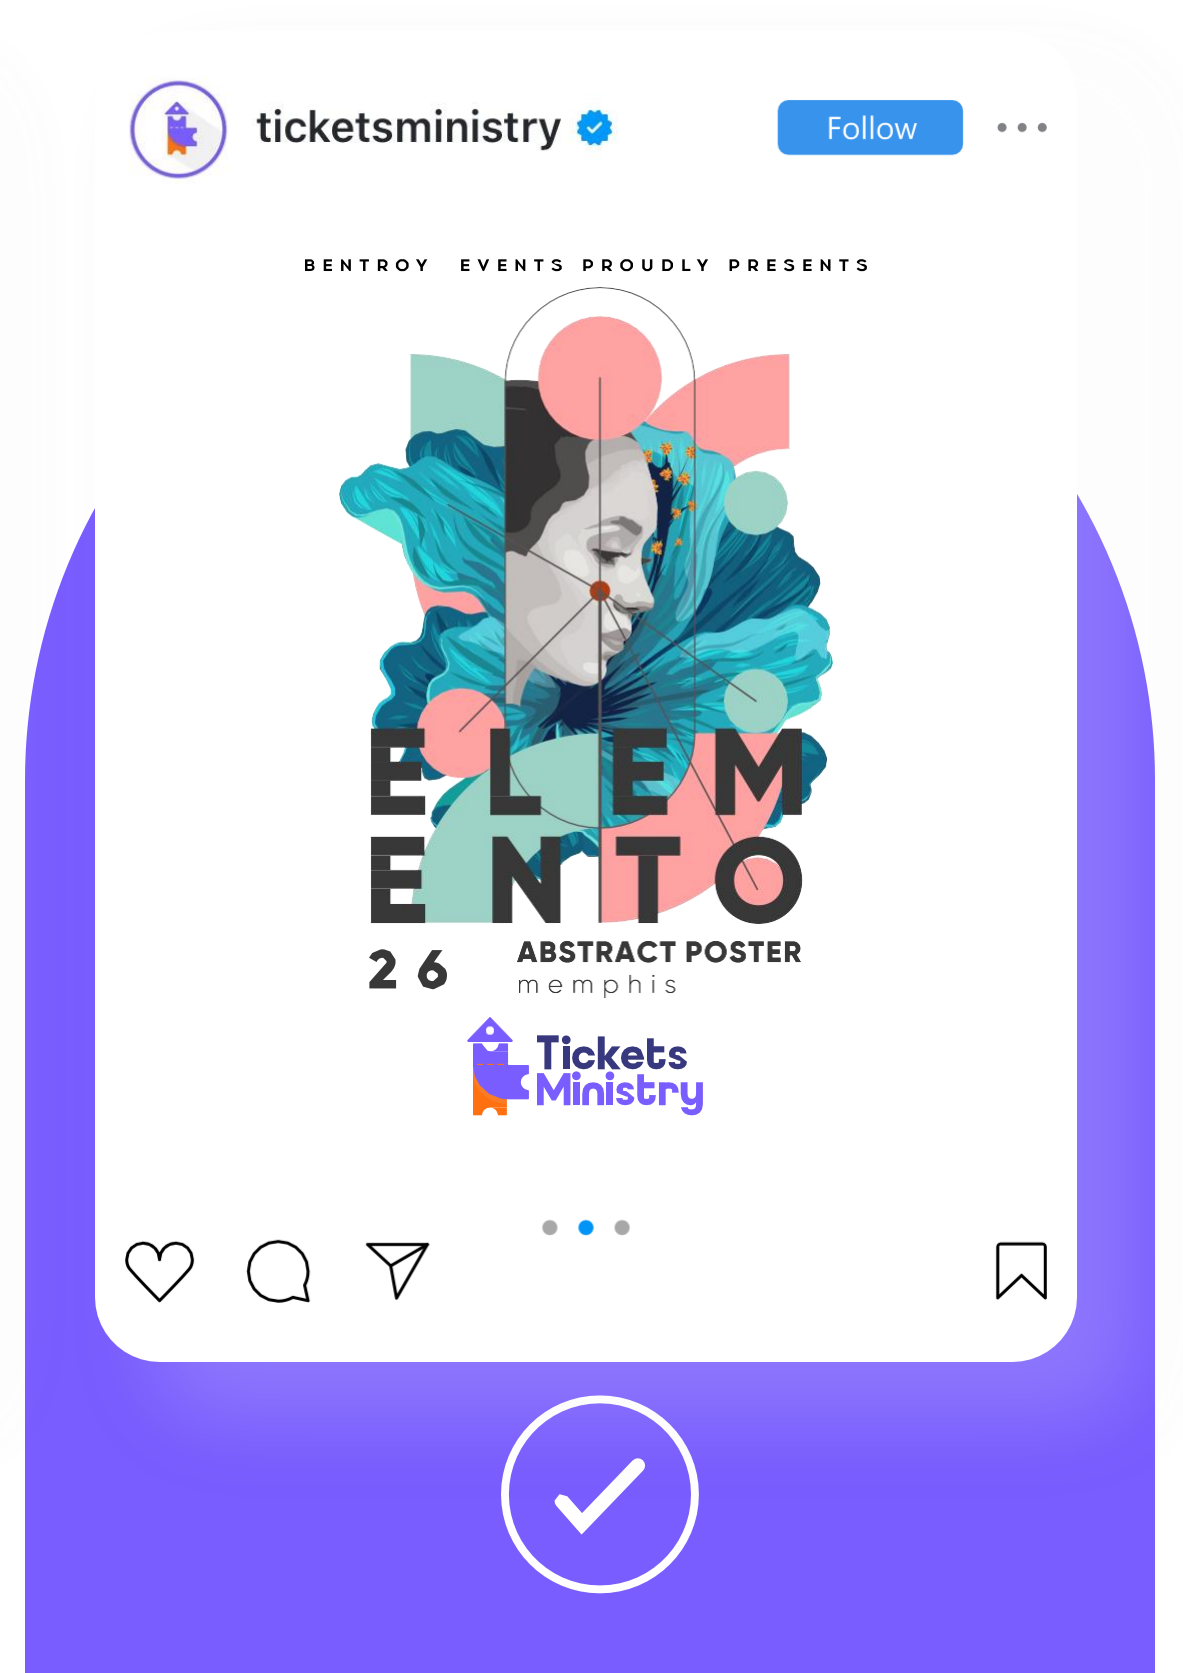

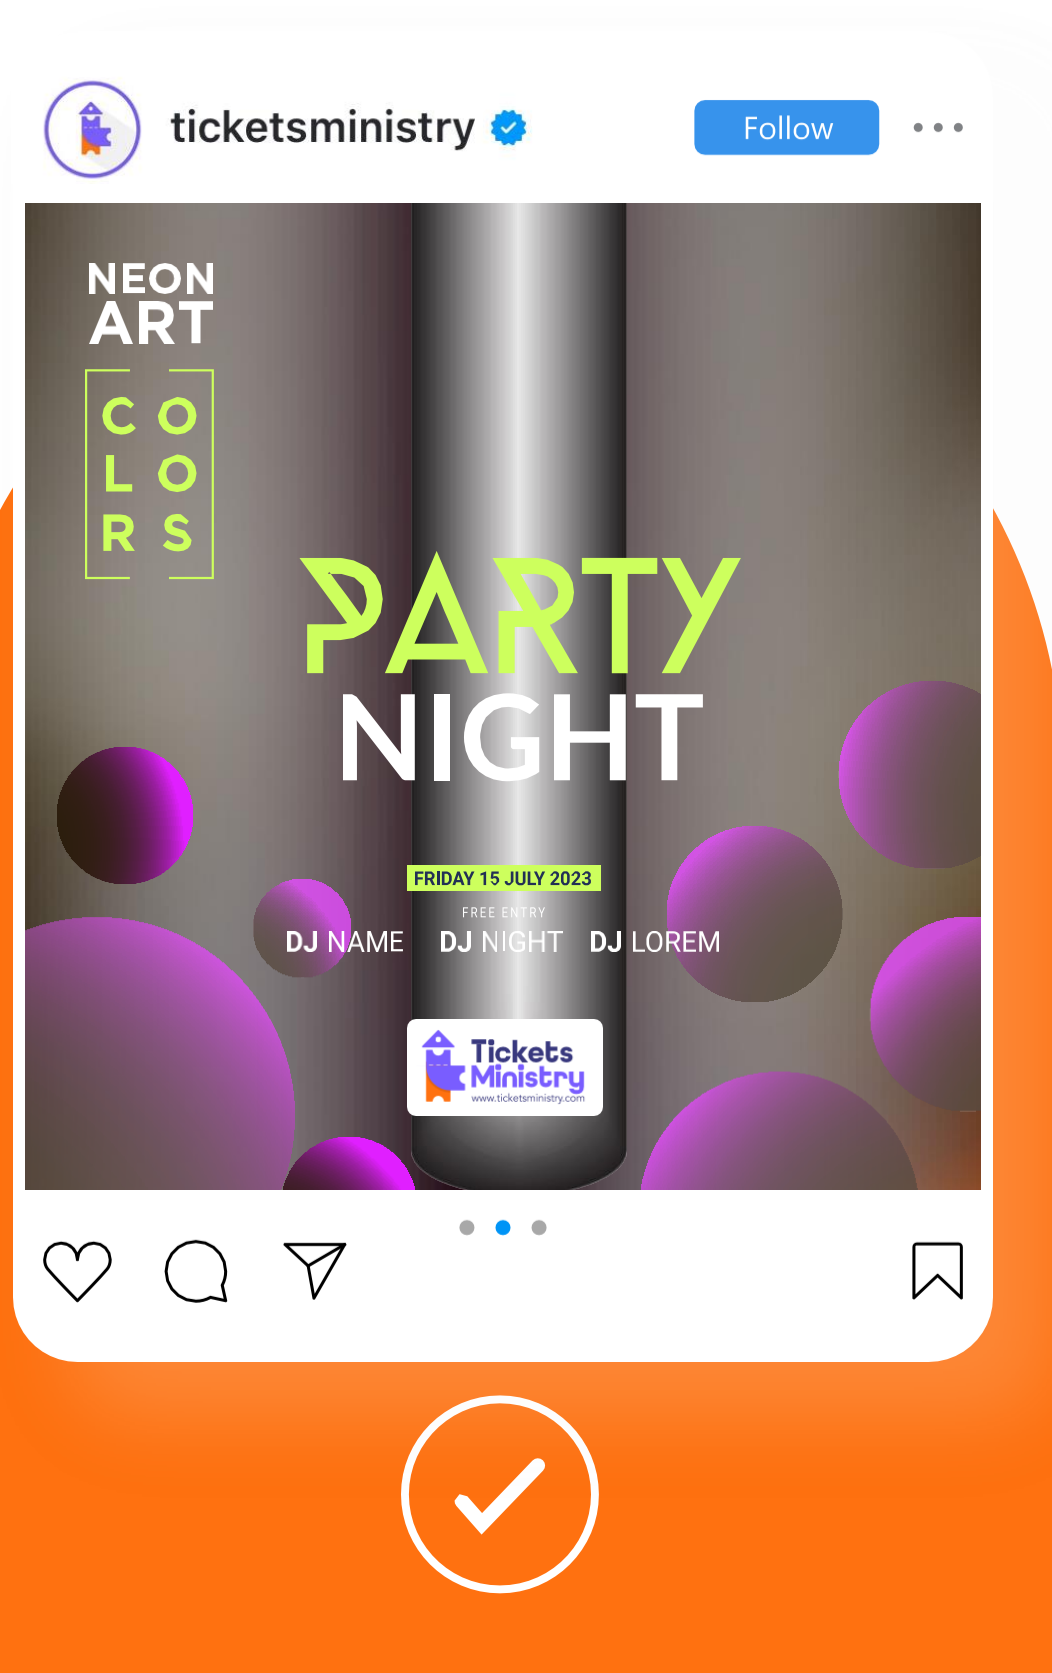

Please follow these guidelines carefully to ensure a seamless integration of our branding into your promotional materials, helping you reach a wider audience and boost ticket sales.

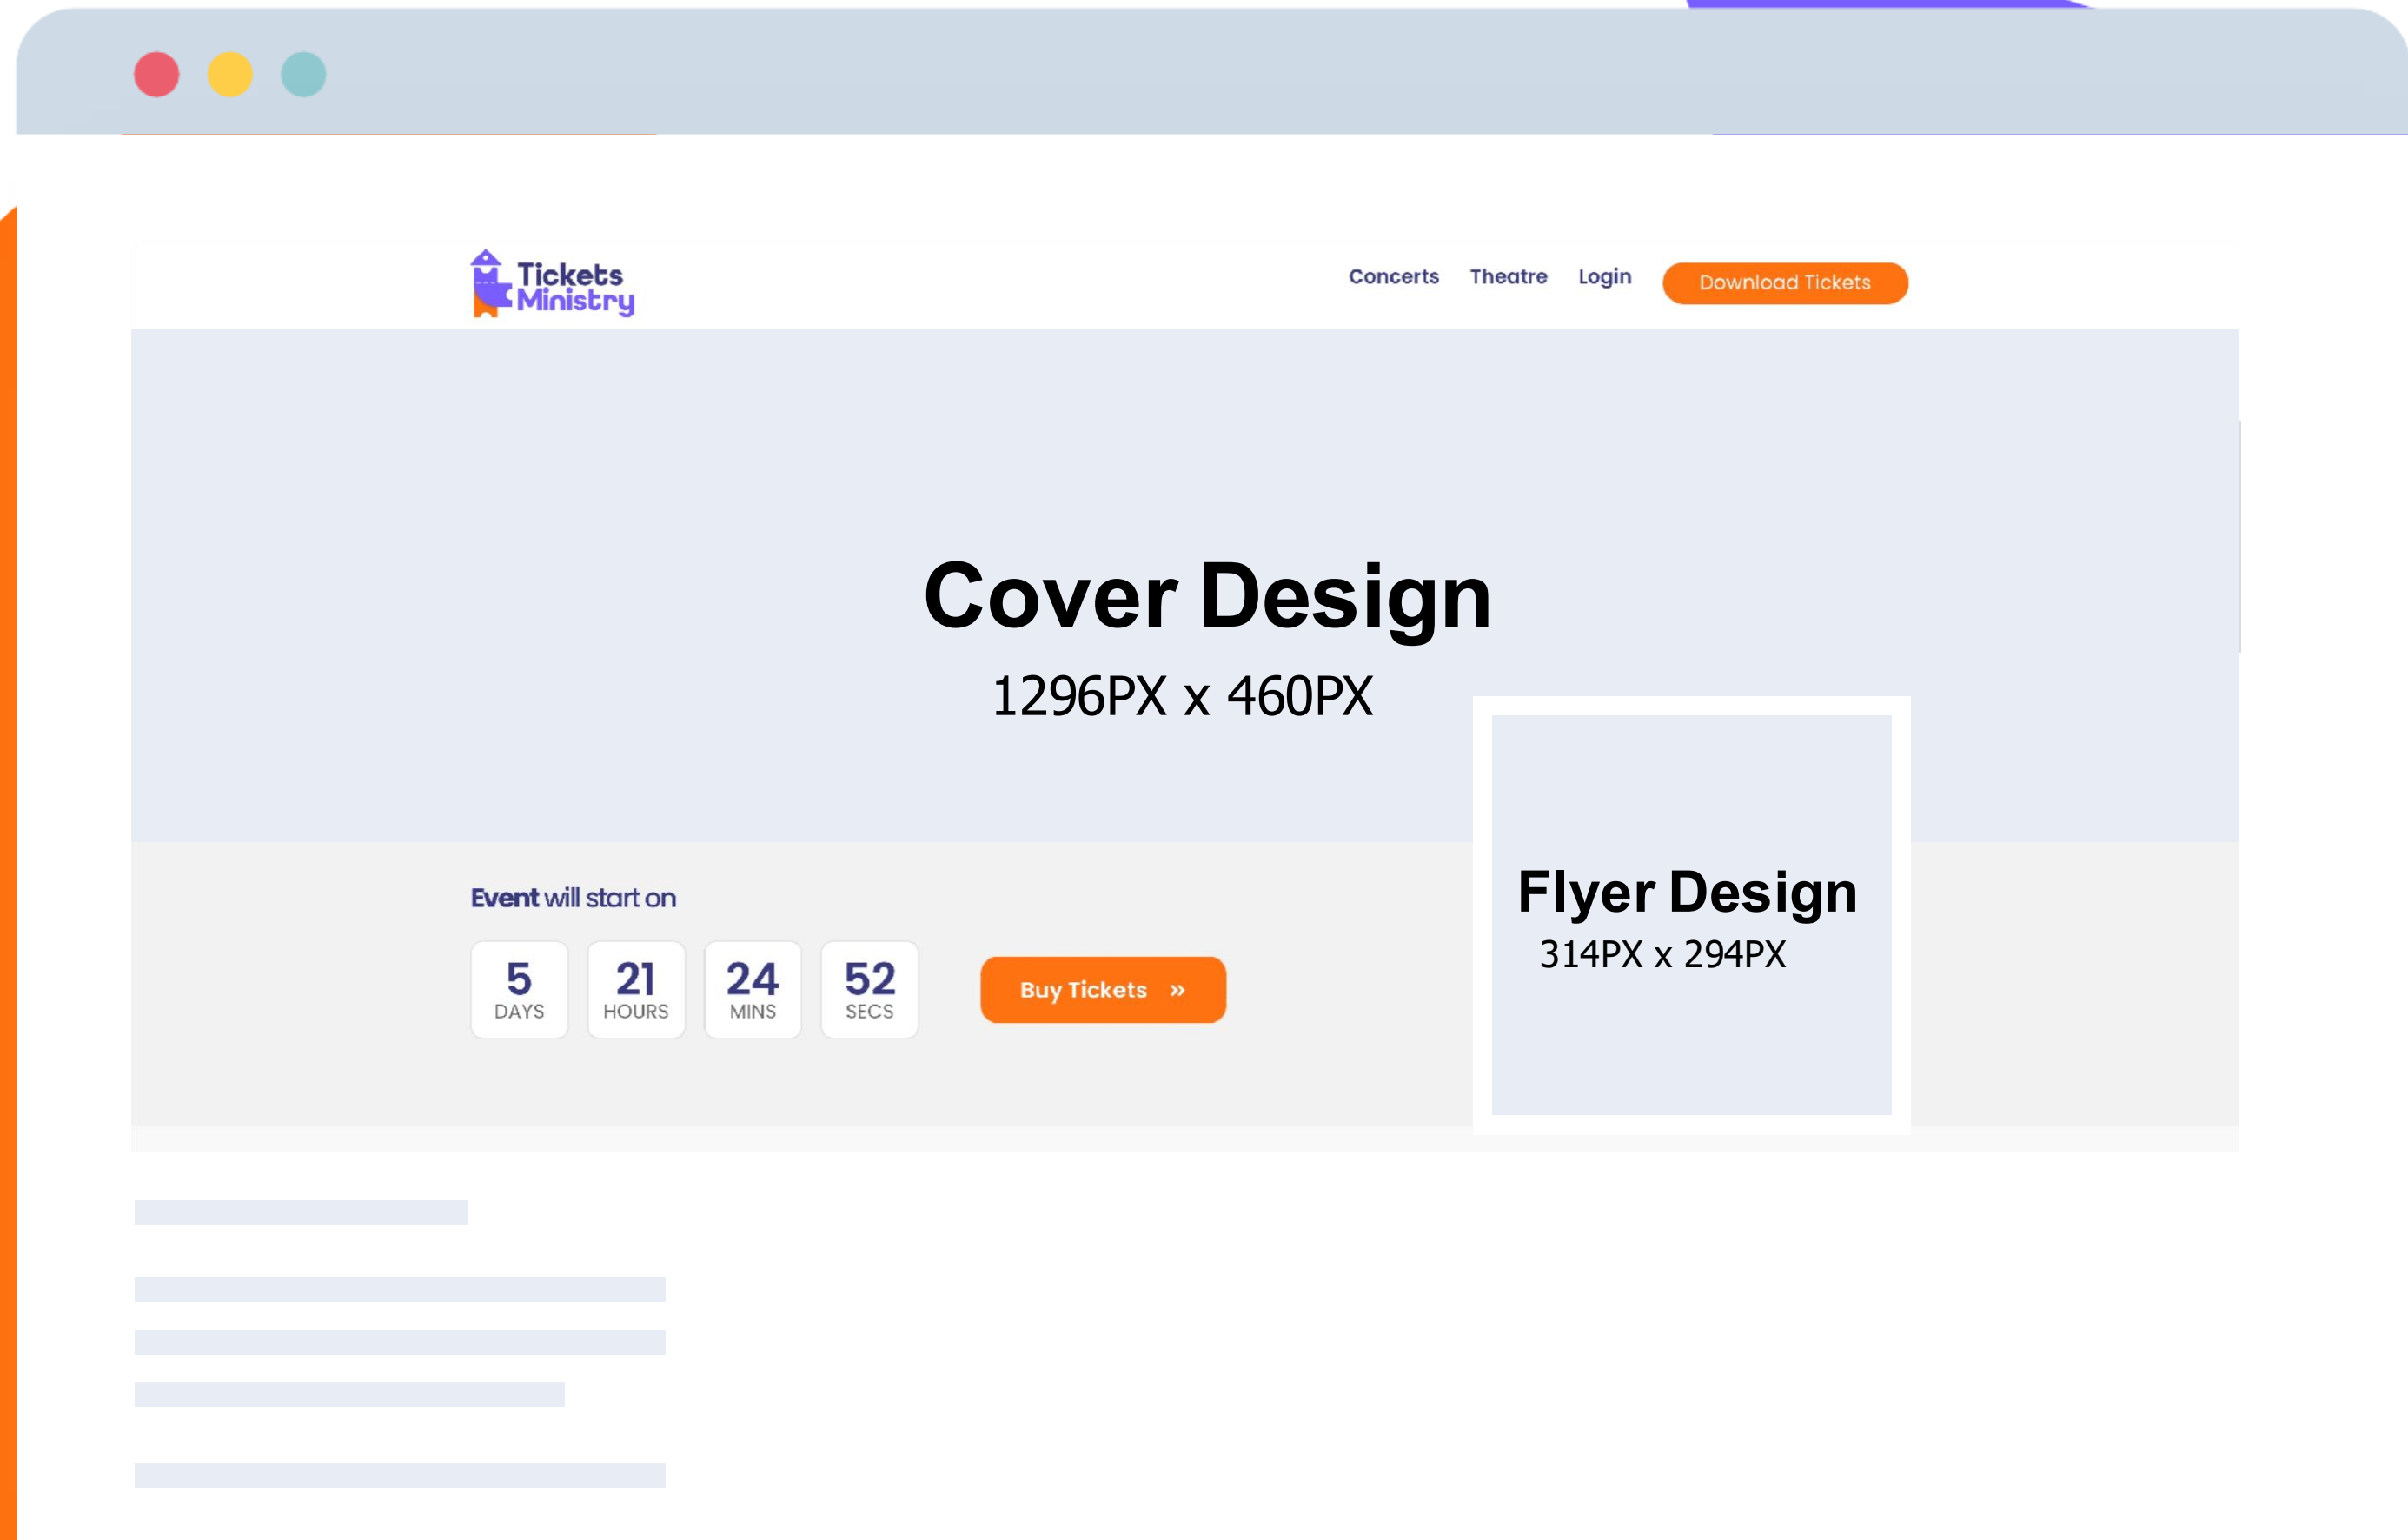

Social Media Logo Placement

Ensure the TicketsMinistry logo is used at its original resolution without reduction. When placing the logo, choose the most suitable version from the three provided options, depending on the background and color tones of your artwork.

Use the RGB color format for accurate color representation. The required image size for **social media posts** is **1080px × 1350px**, which applies to both Instagram and Facebook ([refer to the next page for webpage sizes](#)).
